DYNA 70 LAGUNA

PREMIER SOURCE FOR LUXURY YACHT SALES AND SERVICE

AN ELITE ENTERPRISE PUBLICATION

Picture yourself in a luxurious locale; with features like gold-detailed sinks and showers, mirrors wherever you look, and multiple flatscreen TVs, CD and DVD players in multiple locations. Were you picturing yourself in a yacht out on the open sea? Didn't think so.

The DYNA 70 Laguna has all the swank features and convenience you'd expect from a 5-Star Hotel in New York or Las Vegas, but the nice thing is you can take it to any port.

The split-level modern design creates an open feeling as if you were in a penthouse overlooking oceanfront property.

The designers worked overtime fashioning the ultra sleek glass bar, the acrylic staircase and handrails and the mirrored salon and staterooms. Even with all the elegant and luxurious features the Laguna 70 offers, it also possesses some very practical applications. One of the best features is what the cabin does NOT have – sharp edges or points. Once again designers created an environment with a sense of panache. The Italian inspired interior is very chic with rounded curves.

When spending time on deck you can rest assured that your walk to the bow will be safe with custom installed handrails. While relaxing on the upper deck you can enjoy a BBQ on the gourmet grill and have

everything you'll need for preparing a meal at your fingertips.

When you want to button down the hatches and go, the Laguna 70 can do that, too. She's propelled by twin Caterpillar 1015 hp engines with a top speed of 28 knots. The boat is solid construction fiberglass from the waterline down, making it both durable and fast on the open seas.
